

# Getting Started Guide

BlackBerry 8707v Wireless Handheld™ from Vodafone

## How do I navigate?

**Roll the trackwheel** to move the cursor and highlight items on the screen.

**Click (press) the trackwheel** to open the menu or select items.

**Press the Escape button** to exit a screen, cancel an action, or go back one page in the browser.

## Set Convenience key

In the device options, click **Screen/Keyboard**. Set the device program that should open when you press the side Convenience key.

# Shortcuts

## Phone

Open the phone screen or make a phone call	Press 
End a call	Press 
Turn mute on or off during a call	Press the <b>Mute</b> button
Turn speakerphone on or off during a call	Press 
Change the volume during a call	Roll the trackwheel
Dial a letter in a phone number	Hold  + Press the letter
Open the contact list from the phone screen	Hold 
Redial a number	Press  twice
Call a voice mail access number	Hold 
Assign speed dial to a selected contact	Hold an unassigned letter key > Click Yes

## Browser

Go back one page	Press the <b>Escape</b> button
Exit the browser	Hold the <b>Escape</b> button
Search for a word on a page	Press 
Open a selected link	Press 
Switch between normal and full screen view	Press 
Go down one page	Press 
Go up one page	Press  + 
Go to a specific web page	Press 

## Message list

Open a selected message	Press 
Compose a new message	Press 
Reply to sender	Press 
Reply to all	Press 
Forward a message	Press 
Go to messages from the next day	Press 
Go to messages from the previous day	Press 
Go to the next unread message	Press 
File a message	Press 
View sent messages	Press  + 
View received messages	Press  + 

## Calendar

For these shortcuts to work in Day view, in the calendar options, set the **Enable Quick Entry** field to **No**.

Go to the next day, week, or month	Press 
Go to the previous day, week, or month	Press 
Schedule an appointment	Press 
Move the cursor horizontally in week view	Hold  + Roll the trackwheel
Move the cursor vertically in month view	Hold  + Roll the trackwheel

Note: The arrangement of letters on your device keyboard might vary slightly from the depictions on this document.

# Navigating screens

Lock the device/keyboard

Press +

Unlock the device/keyboard

Double-click the trackwheel

Move the cursor vertically/horizontally

Roll the trackwheel/  
Hold + Roll the trackwheel

Return to the previous screen

Press the **Escape** button

Return to the Home screen

Press

Click an item

Highlight the item > Click the trackwheel

Select multiple items

Hold + Roll the trackwheel

Switch between programs

Hold + Press the **Escape** button

Go to the top of a screen

Press

Go to the bottom of a screen

Press

Turn on or off the device

Hold the **Power** button

# Typing and editing

Capitalize a letter

Hold the letter

Insert a period

Press

Type the alternate character on a key

Press + the key

Insert a symbol

Press

Insert an accented character

Hold a letter + Roll the trackwheel

Select text

Press > Roll the trackwheel

Select individual characters

Hold + Roll the trackwheel

Copy selected text

Press + Click the trackwheel or Click the trackwheel > Click **Copy**

Cut selected text

Press + or Click the trackwheel > Click **Cut**

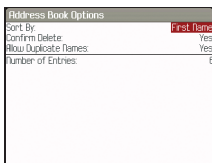

Paste selected text

Press + Click the trackwheel or Click the trackwheel > Click **Paste**

Cancel selection

Press the **Escape** button

# Fields

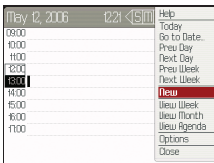

Press to change the value in a field.

Press to view all the values that are available in the selected field.

On an options screen, you can also select an option and click the trackwheel. Click **Change Option**. Click a value.

# Menus

Click the trackwheel to view the menu.

On the menu, click standard menu items such as **New**, **View**, **Edit**, **Delete**, **Save**, **Options**, and **Help**. Additional menu items might appear depending on the item you have selected.

# Programs

Explore the many useful programs that your BlackBerry® device has to offer. Here are a few tips to get you started.

Click **Menu** or press  to view the main programs list where you can access the browser, contact list, calendar, memos list, and more.

On the Home screen, click **Email** to view the messages list, compose new messages, and set options for email messages. Shortcuts for the calendar, phone and SMS/MMS messages list also appear on the Home screen.

In the programs list, click **Settings** to find the main list of device options, including Bluetooth® options, password options, and more.

## Status indicators

 full battery power	 Number mode on	 sent message	 unread SMS message
 low battery power	 Shift mode on	 message sending	 unread MMS message

# Welcome to BlackBerry!

Whether you plan to use your BlackBerry® device for business or personal productivity, you have made an excellent choice! With powerful messaging, voice, web, and organizer features, BlackBerry is the all-in-one solution that is designed to keep you connected to the people, data, and resources that you need every day.

To begin using your BlackBerry device, you must set up and turn on the device, connect to the wireless network, and set up for email. You can also choose to install the BlackBerry Desktop Software so that you can connect your device to a computer for data synchronization and charging.

Take a moment to read this guide and any documents provided by your wireless service provider. These resources provide important setup information and are designed to help you get the most from your BlackBerry device.

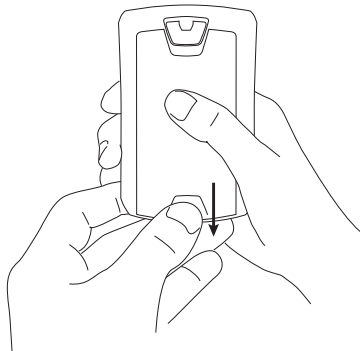

# Setting up your device

## Insert the SIM card

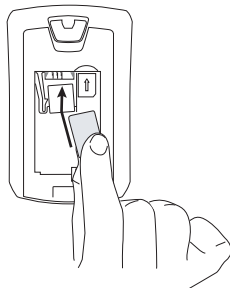

Your SIM card contains important information about your wireless service. Your SIM card might be inserted already.

**Warning:** Turn off your device before you insert or remove the SIM card. Do not scratch, bend, or expose the SIM card to static electricity or wet conditions.

1. Press the battery cover release button.

2. Slide off the battery cover.
3. If the battery is inserted, remove it.
4. Hold the SIM card with the metal contacts facing down so that the notches on the card align with the notches in the SIM card holder on your device.

5. Slide the SIM card into the holder so that it lies flat below the metal guide.
6. Continue to slide the SIM card into the holder until it stops. One end of the SIM card should be slightly hidden below the plastic casing on your device.

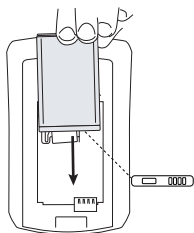

**Note:** To remove the SIM card, press gently on the top of the SIM card and slide it out of the holder.

## Insert the battery

**Warning:** Use only the battery that Research In Motion® specifies for use with your device. See the *Safety and Product Information Booklet* on the BlackBerry User Tools CD for more information about using the battery safely.

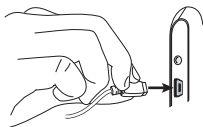

1. Press the battery cover release button.
2. Slide off the battery cover.
3. Insert the battery so that the connectors on the battery align with the connectors on your device.

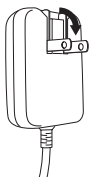

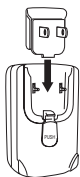

4. Replace the battery cover.
5. If the battery is charged, your device turns on and the confirm date and time dialog box appears.
  - If the date and time are incorrect, click **Edit**. See "Set the date and time" on page 19 for more information.
  - If the date and time are correct, click **OK**.

## Charge the battery

1. Connect the small end of the USB cable to your device.

2. Depending on the type of travel charger that you received with your device, you might need to slide the plug blade attachment into the power adapter or pull the plug blades down.

3. Plug the power adapter into a power outlet.

4. Charge the battery to full power.

**Note:** If you install the BlackBerry Desktop Software on a computer, you can charge your device by connecting it to that computer. See "Can I charge my device by connecting it to my computer?" on page 21 for more information.

## Connect to the wireless network

On the device, if the power is off, press the **Power** button. Your device should connect to the wireless network automatically.

To connect to the wireless network successfully, your wireless service must be active, and you must be in a wireless network coverage area. See the wireless network coverage chart on the inside front cover of this guide for more information.

When your device is not connected to the wireless network, you can continue to use features that do not require a connection to the wireless network. For example, you can type and save draft email messages, manage tasks, or use the calculator.

**Note:** If you use BlackBerry Internet Service, the account setup process should begin automatically the first time that your device connects to the wireless network. See "Setting up for email using the BlackBerry Internet Service" on page 9 for more information.

# Choosing your email setup option

To begin sending and receiving email messages on your BlackBerry device, you must associate your device with an email address using one of the following options.

## **BlackBerry Internet Service option**

Use this option to create a new BlackBerry email address for your device or to associate your device with one or more existing supported email addresses. This option is the most common email setup option for individual users. See "Setting up for email using the BlackBerry Internet Service" on page 9 for more information.

## **BlackBerry Enterprise Server option**

Use this option if you have access to a BlackBerry Enterprise Server® and you want to associate your device with a corporate Microsoft® Outlook®, IBM® Lotus Notes®, or Novell® GroupWise® email account. See "Setting up for email using the BlackBerry Enterprise Server" on page 15 for more information.

## **BlackBerry Desktop Redirector option**

Use this option if you do not have access to a BlackBerry Enterprise Server and you want to associate your device with a corporate Microsoft Outlook (Workgroup Installation) email account that resides on a Microsoft Exchange Server 5.5 or later. See "How do I install the BlackBerry Desktop Redirector?" on page 21 for more information

# Setting up for email using the BlackBerry Internet Service

You can set up for email using a web browser on your BlackBerry device or on a computer.

To set up for email, you must create a login ID and password. The first time that you log in to the BlackBerry Internet Service web site, you can add a supported email address, create a BlackBerry email address, or do both.

- Add an email address if you have an existing, supported email account that you want to access from your BlackBerry device.
- Create a BlackBerry email address if you do not have another existing, supported email account, or if you need an additional email address that you can use to send and receive email messages.

**Note:** If you are adding a work email address, you might need to use a computer to add the address. See "About adding an email address" on page 11 for more information.

## Set up for email using the device

1. Verify that your BlackBerry device is connected to the wireless network.  
If the Sign In screen does not appear automatically, click **Mobile Email**.
2. Click **Create New Account**. Click **Get Link**.
3. Read the legal terms and conditions carefully. Perform one of the following actions:
  - To decline the legal terms and conditions and stop the setup process, click **No**.
  - To accept the legal terms and conditions and continue the setup process, click **Yes**.
4. Type the login information.

- **User ID:** Type a login name of your choice for the BlackBerry Internet Service web site.
- **Password:** Type a login password of your choice for the BlackBerry Internet Service web site.
- **Confirm Password:** Retype your login password.

5. Write down your user ID and password and keep the information in a safe place. You must type this information every time that you log in to the BlackBerry Internet Service web site.
6. Click **Next**.
7. Click a language for the BlackBerry Internet Service web site.
8. Perform one of the following actions:
  - To add an email address for an existing supported email account, type the full email address (for example, yourname@ispname.com). Type the password for your email account.
  - To create a BlackBerry email address, click **Create a BlackBerry email address**. In the **Username** field, type the name that you want to appear before the at sign (@) in your new BlackBerry email address.
9. Click **Next**.
10. Click **OK**.

## Set up for email using a computer

To use this setup option, you require the following items:

- **Internet browser:** Microsoft® Internet Explorer version 6.0 (or later) or Netscape®

Communicator version 7.2 (or later) with JavaScript™ enabled

- **Operating system:** Microsoft Windows® 2000, Windows XP or Mac OS® 10.3 (or later)
1. Verify that the computer is connected to the Internet.
  2. In a web browser, in the web address field, type the appropriate web address:

**Australia:**

[www.mobileemail.vodafone.com.au](http://www.mobileemail.vodafone.com.au)

**France:**

[www.mobileemail.vodafone.fr](http://www.mobileemail.vodafone.fr)

**Egypt:**

[www.mobileemail.vodafone.com.eg](http://www.mobileemail.vodafone.com.eg)

**Germany:**

3. Click **Create New Account**.

4. Read the legal terms and conditions carefully. Perform one of the following actions:
  - To decline the legal terms and conditions and stop the setup process, click **I Disagree**.
  - To accept the legal terms and conditions and continue the setup process, click **I Agree**.
5. Type the personal information number (PIN) and international mobile equipment identity (IMEI) number for your device.

**Note:** To find your PIN and IMEI, in the device options, click **Status**.
6. Click **Continue**.
7. Type the login information.
  - **User ID:** Type a login name of your choice for the BlackBerry Internet Service web site.
  - **Choose Password:** Type a login password of your choice for the BlackBerry Internet Service web site.
  - **Confirm Password:** Retype your login password.
  - **Language:** In the drop-down list, click the language for the BlackBerry Internet Service web site.
8. Write down your user ID and password and keep the information in a safe place. You must type this information every time you log in to the BlackBerry Internet Service.
9. Click **Sign Up**.
10. Perform one of the following actions:
  - To add an email address for an existing supported email account, type the full email address (for example,

yourname@ispname.com). Type the password for your email account.

- To create a BlackBerry email address, in the **Username** field, type the name that you want to appear before the at sign (@) in your new BlackBerry email address.

11. Click **Next**.

12. Click **OK**.

## About adding an email address

You can add email addresses that are associated with the following email account types to the BlackBerry Internet Service:

- ISP (using POP or IMAP)
- Microsoft Exchange (using Microsoft Outlook Web Access or the BlackBerry Mail Connector)
- IBM Lotus Domino (using the mail connector)

You can add most email addresses for most supported email accounts using your BlackBerry device. You must add email addresses for some types of supported email accounts using a computer.

Email account type	BlackBerry device web browser	Computer web browser
most email accounts	✓	✓
personal - Microsoft Outlook	✓	✓
personal - POP or IMAP	✓	✓
work - Microsoft Outlook Web Access	✓	✓
work - Microsoft Outlook		✓
work - IBM Lotus Notes		✓

Setting up for email using the BlackBerry Internet Service

Depending on your email provider, you might not be able to add email addresses for certain email account types. Contact your email provider for more information.

**Note:** You might be prompted to install the BlackBerry Mail Connector on your computer when you add a supported work email address. The BlackBerry Mail Connector is designed to enable the BlackBerry Internet Service to retrieve email messages from a Microsoft Outlook or IBM Lotus Notes work email account from behind a company's firewall.

## Log in using the device

You must log in to the BlackBerry Internet Service web site to add or remove email addresses and to manage settings and message delivery options.

1. Verify that your device is connected to the wireless network.
2. Click **Mobile Email**.
3. Type your login information.
  - **User ID:** Type your login name for the BlackBerry Internet Service web site.
  - **Password:** Type your login password for the BlackBerry Internet Service web site.
4. Click **Submit**.
5. Click **Get Link**.

## Log in using a computer

You must log in to the BlackBerry Internet Service web site to add or remove email addresses and to manage settings and message delivery options.

1. Verify that the computer is connected to the Internet.
2. In a web browser, type the following web address:

**Australia:**  
[www.mobileemail.vodafone.com.au](http://www.mobileemail.vodafone.com.au)

**France:**

www.mobileemail.vodafone.fr

**Egypt:**

www.mobileemail.vodafone.com.eg

**Germany:**

www.mobileemail.vodafone.de

**Greece:**

www.mobileemail.vodafone.gr

**Ireland:**

www.mobileemail.vodafone.ie

**Italy:**

www.mobileemail.vodafone.it

**Luxembourg:**

www.mobileemail.lu

**Netherlands:**

www.mobileemail.vodafone.nl

**Portugal:**

www.mobileemail.vodafone.pt

**Singapore:**

www.m1.blackberry.com

**South Africa:**

www.mobileemail.vodafonesa.co.za

**Spain:**

www.mobileemail.vodafone.es

**Sweden:**

www.mobileemail.vodafone.se

**United Kingdom:**

www.mobileemail.vodafone.net

3. Type your login information.
  - **User ID:** Type your login name for the BlackBerry Internet Service web site.
  - **Password:** Type your login password for the BlackBerry Internet Service web site.
4. Click **Login**.

## Request your login password

If you forget your BlackBerry Internet Service web site password, you can request that the password be sent to your device.

## Request your login password using a computer

1. On the BlackBerry Internet Service web site login screen, click **Forgot your password**.
2. Type the required information:
  - In the **User ID** field, type your login name for the BlackBerry Internet Service web site.
  - In the **PIN** field, type the PIN for your BlackBerry device.

**Note:** To find the PIN for your device, in the device options, click **Status**.

3. Click **Request Password**.

## Request your login password using the device

You can also use your device to request the password.

1. On the BlackBerry Internet Service web site login screen, click **Forgot your password**.
2. In the **User ID** field, type your login name for the BlackBerry Internet Service web site.
3. Click **Submit**.

## Find more information

See the *BlackBerry Internet Service Online Help* for more information about adding email addresses, creating a BlackBerry email address, or managing email settings and message delivery options.

To view the *BlackBerry Internet Service Online Help* log into the BlackBerry Internet Service web site and click the **Help** link.

**Note:** If you log into the BlackBerry Internet Service web site using a browser on your device, click the **Help** link on the web page and then click **Help (Get Link)** in the menu.

## Install the BlackBerry Desktop Software

Install the BlackBerry Desktop Software on a computer to perform any of the following actions:

- synchronize personal information management (PIM) data such as contacts, tasks, and appointments
- back up and restore device data
- load new device programs such as updated system software, games, and third-party personal information management programs
- charge your device using the computer

To install the desktop software, you require the following items:

- Intel®-compatible 486 or higher computer that is compliant with USB 1.1 or later
- Windows 98, Windows ME, Windows 2000, or Windows XP
- available USB port
- If you use Windows 98 (not Windows 98 Second Edition), you must download the DCOM 98 version 1.3 update from [www.microsoft.com/com/default.mspx](http://www.microsoft.com/com/default.mspx) for the USB driver to operate as expected.

1. Insert the BlackBerry User Tools CD into your CD drive.
2. Complete the on-screen instructions.
  - Select **BlackBerry Internet Service** as your account integration option.
3. When the installation is complete, connect the smaller end of the USB cable to your device.
4. Connect the larger end of the USB cable to an available USB port on the computer.
5. On the computer, on the taskbar, click **Start**.

6. Click **Programs > BlackBerry > Desktop Manager**.

**Note:** To find more information about the BlackBerry Desktop Software features, click **Help > Desktop Help Contents**.

# Setting up for email using the BlackBerry Enterprise Server

Your system administrator might set up your device for email on your behalf, or you might need to associate your BlackBerry device with a supported email address yourself using one of the methods described here.

## Set up for email using the device

If your system administrator has provided you with an enterprise activation password, you can set up for email using the device.

1. Verify that your device is connected to the wireless network.
2. On your device, click **Enterprise Activation**.
3. Type your supported corporate email account address.
4. Type the enterprise activation password provided by your system administrator.
5. Click **Activate**.

**Note:** Your system administrator might request that you install the BlackBerry Device Manager program on your computer to reduce the amount of data that is sent over the wireless network when your device is connected to your computer.

## Set up for email using a computer

If your system administrator has not provided you with an enterprise activation password, but has confirmed that you are permitted to use the BlackBerry Enterprise Server, you can install the BlackBerry Desktop Software on your computer to set up for email.

To install the desktop software, you require the following items:

- Intel-compatible 486 or higher computer that is compliant with USB 1.1 or later

- Windows 98, Windows ME, Windows 2000, or Windows XP
  - Available USB port
  - If you use Windows 98 (not Windows 98 Second Edition), you must download the DCOM 98 version 1.3 update from [www.microsoft.com/com/default.msp](http://www.microsoft.com/com/default.msp) for the USB driver to operate as expected.
1. Insert the BlackBerry User Tools CD into your CD drive.
  2. Complete the on-screen instructions.
    - Select **BlackBerry Enterprise Server** or **BlackBerry Desktop Redirector** as your account integration option.
    - Select **BlackBerry Enterprise Server** as your email redirection option.
  3. When the installation is complete, connect the smaller end of the USB cable to your device.
  4. Connect the larger end of the USB cable to an available USB port on your computer.
  5. On your computer, on the Windows taskbar, click **Start**.
  6. Click **Programs > BlackBerry > Desktop Manager**.
    - When you are prompted to generate an encryption key, complete the on-screen instructions.

**Note:** To find out more information about the features of the BlackBerry Desktop Software, click **Help > Desktop Help Contents**.

# How do I...

## Make phone calls

On the Home screen, type a phone number. Press the **Send** key. To end the call, press the **End** key.

**Notes:** Press the **Send** key on any screen to open the phone.

Select a contact, call log, or phone number link on any screen and press the **Send** key to make a call.

To switch between the speaker and earpiece during a call, press the **Speaker** key.

## Send email messages

You must associate your device with an email address before you can send and receive email messages. See "Choosing your email setup option" on page 7 for more information.

1. In a messages list, click the trackwheel.
2. Click **Compose Email**.
3. In the **To** field, type an email address or a contact name.
4. Click the trackwheel.
5. Type a message.
6. Click the trackwheel.
7. Click **Send**.

**Note:** If your device is associated with more than one email address, you can select an address to send the message from. At the top of the message, in the **Send Using** field, press the **Space** key until the preferred email address appears.

## Send PIN messages

A personal identification number (PIN) uniquely identifies each BlackBerry device on the network. If you know the PIN of another BlackBerry device user, you can send a PIN message to that person. To find your PIN, in the device options, click **Status**.

1. In a messages list, click the trackwheel.
2. Click **Compose PIN**.
3. In the **To** field, type a PIN or a contact name.
4. Click the trackwheel.
5. Type a message.
6. Click the trackwheel.
7. Click **Send**.

## Send SMS (text) messages

1. In a messages list, click the trackwheel.
2. Click **Compose SMS**.
3. Click **[Use Once]**.
4. Click **SMS**.
5. Type an SMS-compatible phone number.
6. Click the trackwheel.
7. Click **Continue**.
8. Type a message.
9. Click the trackwheel.
10. Click **Send**.

**Note:** If you have added contacts to the address book, you can select a contact from the list after you click **Compose SMS**.

## Send MMS (multimedia) messages

1. In a messages list, click the trackwheel.

2. Click **Compose MMS**.
3. Click **[Use Once]**.
4. Click **MMS**.
5. Select a send method for your MMS message.
6. Type an MMS-compatible phone number or an email address.
7. Click the trackwheel.
8. Click **Continue**.
9. Type a message.
10. Click the trackwheel.
11. Click **Attach Address, Attach Appointment, Attach Audio, or Attach Picture**.
12. Click a contact, appointment, audio file, or image.
  - If you selected a contact, click **Continue**.
  - If you selected an appointment, click **Attach Appointment**.
13. Click **Continue**.
14. Click the trackwheel.
15. Click **Send**.

**Note:** If you have added contacts to the address book, you can select a contact from the list after you click **Compose MMS**.

## Add contacts

1. In the address book, click the trackwheel.
2. Click **New Address**.
3. Type the contact information.
4. Click the trackwheel.
5. Click **Save**.

## Add SIM card contacts to your address book

If you have saved contact information on your SIM card, you can copy that information into the address book on your device.

1. In the address book, click the trackwheel.
2. Click **SIM Phone Book**.
3. Click the trackwheel.
4. Click **Copy All To Address Book**.

## Go to web pages

1. In the browser, click the trackwheel.
2. Click **Go To**.
3. Type a web address.
4. Click the trackwheel.
5. Click **OK**.

**Notes:** To insert a period, press the **Space** key.

To insert a slash mark (/), press the **Shift** key + the **Space** key.

The **Go To** dialog box tracks the web addresses that you type. To go to a web page on the list, click the web address. Click **OK**.

## Set a device password

1. In the device options, click **Security Options**.
2. Click **General Settings**.
3. Set the **Password** field to **Enabled**.
4. Set the other security options.
5. Click the trackwheel.
6. Click **Save**.
7. Type a device password.
8. Click the trackwheel.
9. Retype the device password.
10. Click the trackwheel.

## Lock the device

With a device password set, on the Home screen, click **Lock**.

To unlock your device, on the Lock screen, roll the trackwheel. Click **Unlock**. Type your password. Press the **Enter** key.

**Note:** When the device is locked, you should be able to make an emergency call without dialing the emergency access number. Click **Emergency Call**. Click **Yes**.

## Set the date and time

1. In the device options, click **Date/Time**.
2. Set the **Time Zone** field.
3. In the **Date/Time Source** field, set a date and time source.
4. Click the trackwheel.
5. Click **Update Time**.
6. Click the trackwheel.
7. Click **Save**.

**Note:** To set the date and time yourself, set the **Date/Time Source** field to **Off**. Set the other fields on the Date/Time screen to display the correct date and time. Save your changes.

## Enable profiles

In the profiles list, click a notification profile. Click **Enable**.

**Note:** To change the current notification profile quickly, select a profile. Press the **Space** key.

## Turn on the Bluetooth radio

To turn on the Bluetooth® radio, in the device options, click **Bluetooth**. Click the trackwheel. Click **Enable Bluetooth**.

To turn off the Bluetooth radio, in the device options, click **Bluetooth**. Click the trackwheel. Click **Disable Bluetooth**.

## Pair with another Bluetooth-enabled device

1. In the device options, click **Bluetooth**.
2. Click the trackwheel.
3. Click **Add Device**.
4. Click the name of a Bluetooth-enabled device.
5. In the **Enter passkey for <device name>** field, type a passkey.
6. Type the same passkey on the Bluetooth-enabled device to which you are pairing.

**Notes:** Verify that the Bluetooth-enabled device that you want to pair with is in the correct mode for pairing.

The names of Bluetooth-enabled devices with which you have already paired appear in the list of paired Bluetooth-enabled devices. They do not appear in the list of Bluetooth-enabled devices that appears when you click **Add Device**.

## Find more information

To open help topics for a program that you are using, in the program, click the trackwheel. Click **Help**.

To open the main list of help topics for all programs, on any help screen, click the trackwheel. Click **Index**.

# Frequently asked questions

## Why does my device not turn on?

The power might be off. Press the **Power** button.

The battery might not be charged. See "Charge the battery" on page 6 for more information.

## Why does my device not charge?

A connection might not be complete. Check that all cables and plugs are fully inserted into ports and power outlets. See "Charge the battery" on page 6 for more information.

The battery might not be inserted properly. Turn off your device and then remove and reinsert the battery. Verify that the connectors on the battery align with the connectors on your device. See "Insert the battery" on page 5 for more information.

If you connect your device to the computer to charge, verify that the computer is turned on. If you connect your device to the computer using a USB hub, the hub must be self powered to provide enough power to charge your device.

## Can I charge my device by connecting it to my computer?

If you have installed the BlackBerry Desktop Software or the BlackBerry Device Manager on your computer, you can connect your device to the computer to charge the battery.

1. Verify that the computer is turned on.
2. Connect the smaller end of the USB cable to your device.
3. Connect the larger end of the USB cable to an available USB port on your computer.

**Note:** To find more help with connecting your device to the computer, in the desktop software, click **Help** to view the *BlackBerry Desktop Software Online Help*.

## Why can I not send or receive email messages?

Verify that your device is connected to the wireless network. See "Connect to the wireless network" on page 6 for more information.

Verify that you have associated your device with a supported email address. See "Choosing your email setup option" on page 7 for more information.

If you are using BlackBerry Internet Service, see the *BlackBerry Internet Service Online Help* for more information about email message troubleshooting. See "Find more information" on page 12 for more information.

If you continue to be unable to send and receive messages, reset your device by removing and reinserting the battery.

**Note:** To find more information about sending and receiving email messages, in a messages list, click the trackwheel. Click **Help > Email Messages**.

## How do I install the BlackBerry Desktop Redirector?

If you use a Microsoft Outlook (Workgroup installation) email account that resides on a Microsoft Exchange Server version 5.5 or later and your device does not have access to a BlackBerry Enterprise Server, you might choose to install the BlackBerry Desktop Redirector software on your computer to associate your device with the email address.

To install the BlackBerry Desktop Redirector, when you install the BlackBerry Desktop Software, select **BlackBerry Desktop Redirector** as your message redirection option. See "Set up for email using a computer" on page 15 for more information about installing the BlackBerry Desktop Software.

Your computer must be on and the BlackBerry Desktop Redirector must be running to send and receive messages on your device.

### **How do I clean the screen?**

Clean the screen and device using only a soft dry cloth. Do not use liquid, aerosol cleaners, or solvents on or near your device. Disconnect any cables from your computer and unplug any charging accessories from the electrical outlet before cleaning.

**Note:** See the *Safety and Product Information Booklet* on the BlackBerry User Tools CD for more information about caring for your device.

### **Where can I buy accessories for my device?**

You can buy approved accessories for your device online at:

[www.shopblackberry.com](http://www.shopblackberry.com)

**Note:** Use only those accessories approved by Research In Motion (RIM) for use with your particular device model. Using any accessories not approved by RIM for use with your particular device model might invalidate any approval or warranty applicable to the device and might be dangerous.

### **Where can I download games and ring tones for my device?**

Many third-party vendors offer games, ring tones, and other programs for your device online. You can download new programs using your device browser, or download them using your computer and load them onto your device using the BlackBerry Application Loader tool of the BlackBerry Desktop Software.

For example, you can visit the following web site using the browser on your device:

[mobile.blackberry.com](http://mobile.blackberry.com)

**Note:** Your use of third-party software shall be governed by and subject to you agreeing to the terms of separate software licenses, if any, for those products or services. Any third-party products or services that are provided with RIM products and services are provided "as is". RIM makes no representation, warranty, or guarantee whatsoever in relation to the third-party products or services and RIM assumes no liability whatsoever in relation to the third-party products and services even if RIM has been advised of the possibility of such damages or can anticipate such damages.

### **Why does the screen on my device turn off?**

When you do not use your device for a period of time, the screen turns off to conserve battery power. Roll the trackwheel or press any key to turn the screen on again.

### **Why do some programs not appear on the Home screen?**

Verify that your device is connected to the wireless network. Some programs, such as browser programs, might not appear on your device until it has successfully connected to the wireless network. See "Connect to the wireless network" on page 6 for more information.

If your device uses a theme, the program might appear in a folder or program menu instead of on the Home screen. The program might also use a different name.

## BlackBerry Internet Service - frequently asked questions

### How do I change or update the device I want to use with the BlackBerry Internet Service?

The BlackBerry Internet Service is linked to your particular device. If you switch devices, you can log in to the BlackBerry Internet Service web site to update the device PIN that is associated with the BlackBerry Internet Service. See "Log in using a computer" on page 11 for more information. See the *BlackBerry Internet Service Online Help* or contact Vodafone for more information about changing or updating your device.

### Why can I not add a supported email address?

Verify that the email account that is associated with the email address that you want to add supports POP3 or IMAP4. Contact your email provider for more information about the address types that you can add. See the *BlackBerry Internet Service Online Help* for more information about adding supported email addresses.

### When I add a supported email address, how does it work with the BlackBerry Internet Service?

When you add a supported email address to the BlackBerry Internet Service, a link is established between the BlackBerry Internet Service and the email account that is associated with the email address you have added. This link enables you to send and receive email messages from your BlackBerry device using the email address that you have added. Email messages continue to be delivered to the original email account as they were before you added the email address to the BlackBerry Internet Service. You also see email messages from the address that you have added in the message list on your BlackBerry device. Email messages that you read, file, or delete on your BlackBerry device should be marked as read, filed, or deleted automatically in your email account. Changes that you make to email

messages in your email account are not reflected on your BlackBerry device. If you have a Microsoft Exchange or IBM Lotus Domino work email account, or an IMAP personal email account, email messages that you send from the BlackBerry device are copied to the Sent Items folder in your email account. Likewise, email messages that you delete are copied to the Deleted Items folder.

**Note:** Depending on your email account type or mail implementation, wireless email reconciliation might not be available for your BlackBerry device.

To synchronize personal information management (PIM) data such as contacts, tasks, and appointments, you must install the BlackBerry Desktop Software. See "Install the BlackBerry Desktop Software" on page 13 for more information.
