# Welcome to BlackBerry!

Get ready to experience the freedom and connectivity of your all-in-one mobile solution. Setting up your BlackBerry® device is easy. Simply verify that your SIM card and battery are inserted in your device, charge the battery, and complete the setup wizard. After you complete the setup wizard, take some time to explore the features on your device. This guide provides tips and instructions to help you learn the basics quickly.

# Set up your device

## Insert the SIM card and battery

Your SIM card is a small rectangular plastic card that stores important information about your wireless service. Your SIM card might already be inserted in your BlackBerry® device.

1. Press the battery cover release button.
2. Slide off the battery cover.
3. If the battery is inserted, remove the battery.
4. If your SIM card is already inserted, proceed to step 11.
5. Slide the SIM card holder door toward its hinges to unlock it.
6. Open the SIM card holder door.
7. Remove the SIM card from any packaging.
8. Place the SIM card into the holder so that the metal contacts on the SIM card face down and the cutoff corner of the SIM card points toward the bottom of your device.
9. Close the SIM card holder door so that it holds the SIM card flat.
10. Slide the SIM card holder door away from its hinges to lock it.
11. Insert the battery so that the BlackBerry logo faces up and the metal contacts on the battery align with the metal contacts on your device.

12. Slide the battery cover back onto the device so that it clicks into place. If the battery is charged, the device turns on. If the device does not turn on, charge the battery.

Figure 1. Remove the battery cover

Figure 2. Insert the SIM card

Figure 3. Insert the battery

## Charge the battery

1. Connect the small end of the travel charger cable to the USB port on the side of your BlackBerry® device.
2. If required, perform one of the following actions:
  - Insert the plug blade attachment into the power adapter.
  - Fold the plug blades down.
3. Plug the power adapter into a power outlet.
4. Charge the battery to full power.

Figure 4. Connect the travel charger cable to your device

Figure 5. Insert plug attachment or fold plug blades down (if required)

If you have an available USB port on your computer, you can use the USB cable that came with your device to connect your device to your computer for charging.

	full battery power		battery charging
	low battery power		

## Complete the setup wizard

The setup wizard is designed to help you learn about typing, set options to personalize your BlackBerry® device, and set up one or more email addresses. The setup wizard takes approximately ten minutes to complete.

1. In the setup wizard dialog box, roll the trackball to highlight **Run Setup Wizard**.
2. Click (press) the trackball.
3. Read the setup wizard introduction.
4. Roll the trackball to highlight **Next**.
5. Click the trackball.
6. Complete the instructions on the screen.

**Note:** If the setup wizard dialog box does not appear automatically, on the Home screen, press the  key. Click **Setup Wizard**.

Figure 6. Setup wizard screen

## About email setup options

Use one of the following options to set up email on your BlackBerry® device:

- **BlackBerry Internet Service option:** Use this email setup option to create a new email address for your device or to associate your device with one or more (up to ten) existing email addresses. You can set up email using this option by selecting the **I want to create or add an email address** option in the setup wizard on your device.
- **BlackBerry Enterprise Server option:** Use this email setup option to associate your device with a Microsoft Outlook, IBM Lotus Notes, or Novell® GroupWise® work email account and to take advantage of advanced wireless data synchronization capabilities. If your system administrator has provided you with an enterprise activation password, you can set up email using this option by selecting the **I want to use a work email account with a**

**BlackBerry Enterprise Server** option in the setup wizard on your device. If you do not have an enterprise activation password, contact your system administrator.

- **BlackBerry Desktop Redirector option:** Use this email setup option to associate your device with a Microsoft Outlook (Workgroup Installation) email account. You can set up email using this option by installing the BlackBerry Desktop Software and selecting the BlackBerry Desktop Redirector option. If you use this email setup option, you must keep your computer turned on to receive your email messages.

**Note:** The available email setup options might vary depending on your wireless service plan.

## Add or create an email address using the setup wizard

1. In the setup wizard, on the email setup screen, select the **I want to create or add an email address** option.
2. Click **Next**.
3. Click **Next** to open the email setup web site on your device.
4. On the email setup web site, click **Create New Account**.
5. If you agree to the legal terms and conditions, click **Yes**.
6. Type the login user ID of your choice for the email setup web site.
7. Type a login password of six or more characters using the multi-tap input method.

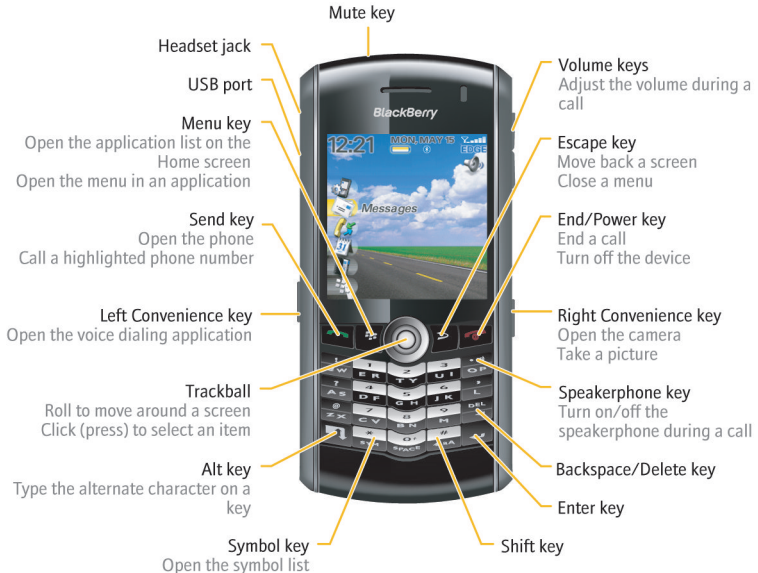

8. Record your login user ID and password in a safe place.
9. Click your language.
10. Perform one of the following actions:
  - To associate an existing, supported email address with your BlackBerry® device, type the email address information.
  - To create a new email address for your device, click **Create a BlackBerry email address**.
  - To learn more about setting up email addresses or using the email setup web site, click **Help**.

To log out of the email setup web site and return to the setup wizard, click **Log Out**.

# Learn the basics

## Move around the screen

- To move the cursor in any direction and highlight items, roll the trackball.
- To select an item or follow a link, click the trackball.
- To open a menu, press the  key.
- To close a menu or move back a screen, press the  key.

## Open a menu

- To open a list of the applications on your BlackBerry® device, press the  key on the Home screen.
- To open a menu of all the available actions for a highlighted item in an application, press the  key.
- If you click an item with more than one common available action, a short menu of these available actions appears. To view more available actions for the highlighted item, press the  key or click **Full Menu**.

Figure 7. Applications list

Figure 8. Full menu

## Typing basics

### About typing input methods

You can type on your BlackBerry® device using the SureType™ input method or the multi-tap input method.

SureType technology combines a traditional phone number key layout with a familiar computer-style letter layout that is designed to provide a comfortable typing and dialing experience.

When you use SureType technology, you press the letter key for each letter in a word once. For example, to type **run**, you would press the key once, the key once, and the key once. As you type, a list of possible letter combinations and words appears on the screen. SureType technology selects letter combinations or

words from the list based on context. If you try to type a word or letter combination (for example, a web address or an abbreviation) that SureType technology does not recognize, you can use the list that appears on the screen to build the word letter by letter. SureType technology is designed to "learn" new words or letter combinations that you type and add them to your custom word list.

When you use multi-tap, you press a letter key once to type the first letter on the key and twice to type the second letter. For example, to type **run**, you would press the key twice, the key once, and the key twice.

SureType technology is the default typing input method for most fields. Multi-tap is the default for phone number and password fields.

## Type text using SureType technology

Press the letter key for each letter in a word until you have typed the entire word.

If your BlackBerry® device does not recognize the word that you have typed, perform one of the following actions:

- To highlight an item in the list that appears when you type, roll the trackball.
- To select a highlighted item from the list that appears when you type and continue typing the same word, press the key.
- To select a highlighted item from the list that appears when you type and start a new word, press the key.

## Type text using multi-tap

- To type the first letter on a key, press the letter key once.
- To type the second letter on a key, press the letter key twice.

## Typing indicators

	multi-tap input mode		number lock mode
	Shift mode		typing input language
	Alt mode		

## Typing tips

- To capitalize a letter, hold the letter key until the capitalized letter appears or press the  key and press the letter key.
- To type the alternate character on a key, hold the  key and press the character key.

- To type a symbol, press the  key. To view more symbols, press the  key again. Type the letter that appears below the symbol.
- To type an accented or special character, hold the letter key and roll the trackball to the left or right. Click a selected character.
- To turn on number lock, hold the  key and press the  key.
- To turn off number lock, press the  key.

## Applications

Take some time to explore the applications that are available on your BlackBerry® device. Here are a few applications to get you started.

Click **Setup Wizard** to learn about typing, set options to personalize your device, and set up your email address. The setup wizard also provides links to information about common tasks.

Click **Browser** to visit web pages or view the browser bookmark list.

Click **Call Log** to make a call or view a list of recent calls.

Click **Camera** to take a picture.

Click **Media** to view saved videos, ring tones, pictures, or songs.

---

Click **Messages** to view a list of your messages. More than one message list might appear on your device.

Click **Options** to view the main list of device options. You can also access additional options from the menu in each application.

Click **Address Book** to view your contact list or add a new contact.

Click **Help** to view the user guide for your device. The user guide provides procedures to help you use your device.

# Start using your device

## Make a call

1. On the Home screen or in the phone, perform one of the following actions:
  - Type a phone number.
  - Type part of a contact name. Highlight a contact or phone number.
2. Press the  key.

To end the call, press the  key.

## Send an email message

1. In a message list, press the  key.
2. Click **Compose Email**.
3. In the **To** field, perform one of the following actions:
  - Type an email address.
  - Type a contact name.
  - Type part of a contact name. Click a contact.
4. Type a message.

5. Click the trackball.
6. Click **Send**.

**Note:** If your BlackBerry® device is associated with more than one email address, in the Send Using field, you can set the email address that you want to use to send the email message.

## Send an SMS text message

1. In a message list, press the  key.
2. Click **Compose SMS**.
3. Perform one of the following actions:
  - If the contact is not in your address book, click **[Use Once]**. Type an SMS phone number (include the country code and area code) or an email address. Click the trackball.
  - If the contact is in your address book, click a contact.
4. Type a message.
5. Click the trackball.
6. Click **Send**.

## Add a contact

1. In the address book, press the  key.
2. Click **New Address**.
3. Type the contact information.
4. Click the trackball.
5. Click **Save**.

## Take a picture

By default, when you take a picture, the camera saves the picture to the BlackBerry® device memory.

1. In the camera, click the trackball.
2. Perform one of the following actions:
  - To take another picture, click the **camera** icon.
  - To delete the picture, click the **trash can** icon.
  - To set the picture as a caller ID picture or Home screen background, click the **crop** icon.
  - To forward the picture, click the **envelope** icon.
  - To rename and save the picture, click the **folder** icon.

## Visit a web page

1. In the browser, press the  key.
2. Click **Go To**.
3. Perform one of the following actions:
  - Type a web address. Press the  key.
  - Highlight a web address. Press the  key.
  - Highlight a web address. Press the  key. Click **Edit**. Change the web address. Press the  key.
4. Click **OK**.

## Pair with a Bluetooth enabled device

Some Bluetooth® enabled devices have passkeys that you must type before you can pair with them.

1. In the Bluetooth setup application, click **OK**.
2. Click a Bluetooth enabled device.
3. If required, type the passkey for the Bluetooth enabled device on your BlackBerry® device.

4. If required, type the passkey for the Bluetooth enabled device on the Bluetooth enabled device.

## About using your device with a computer

You can install the BlackBerry® Desktop Software on your computer and connect your BlackBerry device to your computer to perform any of the following actions:

- Synchronize organizer data such as contacts, calendar entries, tasks, and memos between your device and your computer.
- Back up and restore device data.
- Transfer files between your device and your computer.
- Add applications to your device.
- Set up and manage email message forwarding or wireless calendar synchronization if your system administrator has advised you to do so.
- Set up and manage email message forwarding using the BlackBerry Desktop Redirector to forward email messages from a Microsoft® Outlook® (Workgroup installation) email account that resides on a Microsoft Exchange Server version 5.5 or later.

See the *BlackBerry Desktop Software Online Help* for more information about synchronizing data, backing up or restoring data, adding applications, or other functions.

## Installation prerequisites

- Intel® compatible 486 or higher computer that is compliant with USB 1.1 or later
- Microsoft® Windows® 2000, or Windows XP
- available USB port
- CD drive

## Install the BlackBerry Desktop Software

1. Verify that your BlackBerry® device is not connected to your computer.
2. Insert the BlackBerry User Tools CD into the CD drive on your computer.
3. Click **BlackBerry Desktop Software**.
4. Complete the instructions on the screen.
5. When the installation is complete, connect the smaller end of the USB cable to the USB port on the side of your device.
6. Connect the larger end of the USB cable to the USB port on your computer.

**Note:** If the BlackBerry Desktop Manager does not open automatically, on the taskbar, click **Start > Programs > BlackBerry > Desktop Manager**.

## About accessories

You can buy accessories such as batteries, carrying solutions, headsets, and charging solutions for your BlackBerry® device. Contact your wireless service provider or visit [www.shopblackberry.com](http://www.shopblackberry.com) for more information.

**CAUTION:** Use only accessories that Research In Motion has approved for use with your device model. Use of other accessories might invalidate your warranty and might be dangerous.

## About adding applications to your device

You can download applications for your BlackBerry® device from a web site such as [mobile.blackberry.com](http://mobile.blackberry.com) using the browser on your device. You can also download application files from a web site such as [www.handango.com/blackberry/](http://www.handango.com/blackberry/) using a browser on your computer. If you download applications using a browser on your computer, you can add the application to your device using the application loader tool of the BlackBerry Desktop Software. The BlackBerry Desktop Software is available on the *BlackBerry User Tools CD* that came with your device.

**CAUTION:** If you add an application to your device, read the terms and conditions for the application carefully. Research In Motion makes no representation, warranty, or guarantee whatsoever for applications that you add to your device and assumes no liability for them.

## Insert a media card

Use a microSD media card to extend the memory available on your BlackBerry® device for storing media files such as videos, ring tones, pictures, or songs. The media card might be sold separately from your device.

1. Turn off your device.
2. Press the battery cover release button.
3. Slide off the battery cover.
4. Remove the battery.
5. Slide the media card holder door toward its hinges to unlock it.
6. Open the media card holder door.
7. Place the media card into the slots in the media card holder door so that the metal contacts on the media card align with the metal contacts on your device when the media card holder door is closed.
8. Close the media card holder door.
9. Slide the media card holder door away from its hinges to lock it.

Figure 11. Insert the media card

## Find more information

- To view the user guide for your BlackBerry® device, click **Help** in the application list or in an application menu.
- To view the BlackBerry 101 tutorial, user guide, safety and product information booklet, or software license agreement and warranty for your device, insert the *BlackBerry User Tools CD* that came with your device into the CD drive on your computer.
- To try a free 30-minute introductory training course (available in English only) for your device or to purchase additional training, visit [www.blackberry.com/go/onlinetraining](http://www.blackberry.com/go/onlinetraining).

- To find information about your wireless network or your wireless service plan, visit your wireless service provider web site.
- To find software, games, and accessories for your device, visit [www.discoverblackberry.com](http://www.discoverblackberry.com).

# Troubleshooting

## I cannot connect to a wireless network

Try performing the following actions:

- Verify that your SIM card is inserted in your BlackBerry® device correctly.
- Verify that you have turned on the connection to the wireless network.
- Verify that you are connected to your wireless service provider's network. If you switched wireless networks manually, your device remains connected to that wireless network until you select your wireless service provider's network again.

## I cannot associate my device with an email address

Try performing the following actions:

- On the email setup web site, verify that you have typed all the email address information correctly. Use the multi-tap input method to type your password.
- Log in to the email setup web site and add an email address to your BlackBerry® device using a browser on your computer. To log in to the email setup web site, type the email setup web site address provided by your wireless service provider in a browser on your computer. If you have already created a login

ID and password, use this information to log in. If you have not created a login user ID and password, click **Create New Account** and complete the instructions on the screen. To associate your device with a Microsoft® Outlook® or IBM® Lotus Notes® email account, you must visit the BlackBerry Internet Service email setup website using a browser on your computer.

- Verify that the email address is associated with a supported email account (for example, a POP3 or IMAP email account). If you cannot add the email address using a browser on your device or your computer, contact your wireless service provider for more information about supported email accounts.

## I do not know which email setup option to select in the setup wizard

- Select the **I want to create or add an email address** option if the other options do not apply to you. This option is the most common option for individual users. If you select this option, an email setup web site opens on your device. On the email setup web site, you can create a new email address for your BlackBerry® device or associate your device with an existing, supported email address.
- Select the **I want to use a work email account with a BlackBerry Enterprise Server** option if a system administrator has provided you with a password that you can use to activate your device over the wireless network. If you select this option, an Enterprise Activation screen appears. On this screen, you can type your work email address and the password provided by your system administrator to activate your device.

- Select the **Skip email setup** option if any of the following situations apply:
  - A representative from the store where you purchased your device has already helped you to set up your email address.
  - You have already visited the email setup web site and have set up an email address using a browser on your computer.
  - You have an existing email account and have access to a BlackBerry Enterprise Server, but your system administrator has not provided you with a password that you can use to activate your device over the wireless network. Contact your system administrator for more information about setting up email for your device.
  - You have a Microsoft® Outlook® (Workgroup installation) email account on a Microsoft Exchange Server version 5.5. or later and you want to use the BlackBerry Desktop Redirector to forward email messages to your device.

## I cannot send messages

Try performing the following actions:

- Verify that your BlackBerry® device is connected to the wireless network. If you are not in a wireless coverage area, your device should send the messages when you return to a wireless coverage area.
- If the menu item for sending a message does not appear, verify that you have added an email address or PIN for your contact.

- If you created an email address or added an existing email address to your device using the email setup web site, verify that you have received an activation message on your device from the BlackBerry Internet Service. If you have not received an activation message (the message might take a short period of time to arrive), use the email setup web site to send a service book to your device.
- If you have not received a registration message from the wireless network, register your device. In the device options, click **Advanced Options**. Click **Host Routing Table**. Press the  key. Click **Register Now**.
- Resend the message. Open the message. Press the  key. Click **Resend**.

## I am not receiving messages

Try performing the following actions:

- Verify that your BlackBerry® device is connected to the wireless network. If you are not in a wireless coverage area, you should receive messages when you return to a wireless coverage area.
- If you created an email address or added an existing email address to your device using the email setup web site, verify that you have received an activation message on your device from the BlackBerry Internet Service. If you have not received an activation message (the message might take a short

period of time to arrive), use the email setup web site to send a service book to your device.

- If you have not received a registration message from the wireless network, register your device. In the device options, click **Advanced Options**. Click **Host Routing Table**. Press the  key. Click **Register Now**.
- If you use email message filters, verify that the email message filter options are set correctly.

## I cannot make or receive calls

Try performing the following actions:

- Verify that your BlackBerry® device is connected to the wireless network.
- If you cannot make calls and fixed dialing is turned on, verify that the phone number for your contact appears in your fixed dialing list or turn off fixed dialing.
- If you have traveled to another country and you have not changed your smart-dialing options, dial the full phone number, including the country code and area code, for your contact.
- If you are not receiving calls, verify that call blocking and call forwarding are turned off.
